

GARDEN COMMUNICATIONS

Principal Letter to Staff

Dear Staff,

As many of you know, we have partnered with Big Green and installed a Learning Garden in our school yard.

This Learning Garden is intended to be used by the whole school community. This will be a long term, school-wide project to engage our students in growing real food. I hope to see this garden become an established part of our teaching and school culture. Healthy eating and hands-on outdoor learning can have huge impacts on a child's health and well-being throughout their lives.

Big Green will be working with our Garden Team to grow a beautiful and productive garden as well as to provide teaching materials, gardening materials and training, and to highlight opportunities to learn. Although the Learning Garden will be managed by our Garden Team, they will be reaching out to you all with opportunities to participate. Please be proactive and respond to their requests for participation.

Our Garden Team is:

- Garden Team Member #1
- Garden Team Member #2
- Garden Team Member #3
- Garden Team Member #4

Thank you all for your participation, and please contact our awesome Garden Team for any questions, further explanations or ideas you would like to share for the garden!

Sincerely,

[PRINCIPAL NAME]
