Spacing: 2 inches
Harvest Window: Late September - October 31

Carrot Seeds: 60-90 days to maturity
Spacing: 1 inch
Harvest Window: Late October through December

= Carrots
= Beets
= Watermelon Radishes
Planting Window: August 1 - 30

Arugula Seeds: 35-45 days to maturity
Spacing: 3 seeds per inch
Harvest Window: September - November

Kale Seedlings: 35-45 days to maturity
Spacing: 1 foot between seedlings
Harvest Window: September - December

Mustard Seeds Mix: 35-45 days to maturity
Spacing: 3 seeds per inch
Harvest Window: September - November

Chard Seedlings: 35-45 days to maturity
Spacing: 1 foot between seedlings
Harvest Window: September - December
Suggested Planting Date: August

Perennial Herbs: Sage, Oregano, Thyme, and Chive Seedlings:
40 Days to Maturity
Spacing: 8 inches
Harvest Window: Full Garden season
Care: Harvest regularly to promote good growth of new leaves.

Seasonal Selection: Each season our team will be choosing a new plant to feature based on local interest and availability.

Strawberry Seedlings: Fruit matures throughout the summer
Care: Trim 'runners’ to promote fruit growth
To Harvest, pluck fruits when fully red

Scallion Seedlings
40 - 60 Days to maturity
Spacing: 1 inch
Harvest Window: September - October

Watering with Irrigation
Watering by hand
Be sure to keep your soil evenly moist

Perennial Herbs

Ch = Chives
Or = Oregano
Th = Thyme
Sa = Sage
S = Strawberries
