								WINTER BREAK

OKAY TIME TO PLANT	
IDEAL TIME TO PLANT	
BABY PLANTING	*
HARVEST PERIOD	
DO NOT PLANT	

- Late Summer Garden crops must be planted no later than the first week of September. Reserve half of the packets for spring planting if you wish to plant more in the spring.
- Okay time to plant = monitor seeds to ensure they don't dry out in high temperatures
- **Bold** = we only provide one packet but it can be planted in spring as well
- Projected harvest is based on *ideal conditions* (i.e. consistent watering).
