HOW TO BUILD YOUR HOME GARDEN
a step-by-step instruction manual

BIG GREEN
GROWING FOOD CHANGES LIVES
Gather your supplies! Here's what you'll need to build your garden:
Place your garden bed. We recommend a flat surface that gets at least 6-8 hours of sunlight.

1

*Add soil after placing the bed, once added the bed will be too heavy to move.

2
Prepare your soil.
Plant your seeds by following the directions on your seed packets.
It's best to water daily to ensure you'll have a happy harvest.

You did it! Nice work. Take a moment to think about the space you've built and the things you're going to grow!
